Cadence Aerospace Announces Appointment of Olivier Jarrault to its Board of Directors

Washington, DC – June 29, 2020 – Cadence Aerospace (“Cadence”), a leading manufacturer of critical precision components to the aerospace and defense industry and backed by Arlington Capital Partners (“Arlington”), has announced that Olivier Jarrault has been appointed to its Board of Directors.

Most recently, Jarrault served as the President and CEO of Albany International (“Albany”), a global developer and manufacturer of advanced materials-based engineered components for the aerospace and paper markets, and was previously Group President of ALCOA Engineered Products and Solutions (“Alcoa”).

Julian Guerra, Interim CEO at Cadence, said “We are delighted to welcome Olivier to our Board of Directors. Olivier’s extensive expertise in leading advanced engineering and manufacturing businesses, particularly in the aerospace and defense market, will be a key addition to our team as we continue to strategically grow our Structures and Engines divisions.”

“Cadence is extremely well positioned in the global aerospace and defense supply chain, providing highly complex, very large and difficult to manufacture components to blue chip players in the space,” said Jarrault. “I am incredibly excited to partner with the Cadence and Arlington teams as we drive further value creation for Cadence’s customers.”

Peter Manos, a Managing Partner at Arlington, stated, “Olivier has an impressive track record with over 35 years of experience in the aerospace and defense industry working for leading blue chip companies. His broad operational, strategic, and M&A experience interacting with all of the aerospace industry’s major OEMs makes him an extremely strategic addition to our Board as he brings his vast breadth and depth of industry knowledge to the team.”

Bilal Noor, a Vice President at Arlington, said, “Olivier has delivered exceptional financial and operational growth during his time at Albany International and at ALCOA before that. We look forward to leveraging his many years of experience as we continue to grow Cadence.”
